

A SECESSION MOVEMENT IS NOTHING BUT AN EXERCISE IN NON VIOLENT CIVIL DISOBEDIENCE

Experience has shown us that when people hear about a secession movement, they think about war and they think about being disloyal to the USA. Both of those ideas logically grow out of the historical background of previous secession movements in the USA. The two previous serious secession movements on this land led to wars: the American Revolutionary War and the American Civil War.

But it is a error in logic and fact to think that a secession movement must necessarily lead to war. In fact a secession movement can be a way to wake the majority up to the fact that there are things happening in this nation that have the potential to lead to war unless the grievances of the minority are redressed. It is to accomplish that purpose that The Creator's Rights party advocates the formation of a serious secession movement in these presently united States of America.

It is not surprising that Christians will look long and hard at such a radical and extreme idea.

Since Christians are trained from infancy to be loyal and obedient servants, Christians are supposed to reject any leaders or any strategy except those authorized by God Himself and those being implemented by leaders also chosen by God Himself.

But there is nothing in a secession movement that *necessarily* requires Christians to engage in violence or any activity that is truly un-American. And there is nothing in a secession movement that is *necessarily* contrary to anything God teaches in Holy Scripture.

The fact is, any action taken in life can be perverted and made into an action of disobedience to God. The Lord Jesus Christ railed against Pharisees but the fact is they were, in most of their activities, acting in precise obedience to the instructions they had received from God in Holy Scripture. But, still, they managed to twist their actions into an opportunity to crucify God among us, Emanuel.

Today, as we Christians collaborate with this present government that calls itself the federal government of the United States of American, it can be proven (in fact the Abortion Abolitionist magazine offers evidence in every issue) that we are participating in an exercise of support for a government that has already literally destroyed all the legal principles upon which the government of the USA was originally founded. This government has exiled the God of the Bible from the process leading to the formation of law. Furthermore, the government that we are supporting by refusing to launch a serious secession movement is legally slaughtering the least of God's children by the thousands each day that passes.

Is it an action of disobedience to God to secede from such a godless and reprobate regime?

Of course not: it is required by God that His people, at some point, withdraw themselves from leaders who would destroy Emanuel even if it costs them their lives in the process. That is the point of the story of the life of the Lord Jesus Christ. Instead of Christians acting disobedient and un-American when they support a secession movement, they are in fact fulfilling that which God has given them a duty to perform because of their obligations to God and because of their duties as citizens of the United States of America.

If we will allow ourselves to get past the flesh and

hear what the Holy Spirit says, we will realize that the federal government of the USA has done the best job in history in bribing Christians into cooperation with an ungodly regime. Nearly 50 million Americans, most of them Christians, receive a Social Security check from the federal government each month. As many as 25 million more Americans, most of them Christians, are employed in one way or another in activities that depend directly on a check written by a federal government official. This category includes those employed by the various departments of the federal government, military, etc., as well as those myriad private contractors who depend on federal government contracts to keep paychecks flowing to their millions of employees. And this does not even mention the direct financial relationship that has been created between the federal government and the employees of those hundreds of thousands of Christian churches that have become corporations dependent upon the federal government for financial benefits.

When this direct financial connection is brought into view, it raises the distinct possibility that Christians are not resisting a secession movement based on strict Biblical principles.

But even were our financial dependency on the federal government different, it not surprising that most Christians would have a very difficult time thinking about a secession movement. Christians are trained from infancy to be obedient to their leaders and those they perceive to be in authority over them. That makes Christians some of the easiest people in the world to lead astray should the people leading them turn disobedient to God but at the same time retain the outward trappings of Godly authority.

The Lord Jesus Christ brought the power of His wrath against exactly those people--people who were supposed to be leaders appointed and anointed by God, but whose actions proved they were in fact not obeying God or God's priorities at all. He railed against the Pharisees for wearing their "phylacteries wide and their prayer shawls long." His point was they made certain their symbols of Godly authority would stand out in the eyes of the people who followed them. The Lord Jesus Christ attacked such "wolves in Sheep's clothings" because unless their disobedience to God was revealed, God's people would always tend to follow them. As the Lord Jesus Christ demonstrated, the first step in restoring God's people to obedience to God is to attack and overcome ungodly leaders who are leading them astray.

Once we realize that the people who are leading Christians in the USA today have proven they are unwilling to obey God and treat the least of His brothers like they would want to be treated themselves, then it becomes possible to look around and see if God has been preparing other leaders to take the place of those failed and bankrupt leaders of the past.

For nearly twenty years God has been preparing a core of leaders and a national network of teachers in The Creator's Rights party who can quickly and decently bring a serious secession movement into being in this generation in this nation. Those leaders are asking you to participate. If you want to help, contact us today. If you don't want to help, it is our prayer that one day you will look in the mirror and realize God did not raise you to be a slave to sin.
